

Attn: Office Equipment Dealers

Introducing RoutXpress 3.1

The most advanced print management software tool on the market today

Key Features:

- Tracks all print jobs, by user, by printer, by department, by time, and by cost
- Provides job accounting, by print job, by user, by account
- Automatically re-routes print jobs to the next-best printer when a printer stops functioning
- Print audit trail supports document security and compliance (HIPAA)

Key Benefits:

- Key tool to support Managed Print Services
- Provides a way to manage your customers' print fleet
- Reduces the cost of printing/copying by thousands of dollars/month
- Supports "green" culture
- Provides reporting to make print assessments easy to implement

Re-route expensive print jobs to the dealer-supported printing device!

Use print assessment and reporting data to support Managed Print Services (MPS).

RoutXpress gives us a competitive advantage by providing "value-added" print audit software tools to differentiate our proposals for major deals.

Edmund Sumner, Copying Concepts
A Sumner Group Company

RoutXpress is a valuable tool for a Managed Print Services strategy. It provides the print assessment data we need to manage our customers' print fleet —efficiently and cost-effectively.

Marcus Schaffer, Roxana School District
