

RoutXpress 3.1 Technical Fact Sheet

The most advanced print management software tool on the market today

RoutXpress 3.1 is a complete print assessment, accounting, and routing tool.

RoutXpress 3.1 Modules and How They Work:

<p>RXServer: Brains of RoutXpress. SQL database contains rules, print activity, alerts</p>	<p>Administrator Client: Used by administrator to discover printers (local and networked), set-up printer and user rules, add/modify user properties, monitor print activity</p>
<p>RXSpooler: Detects printers and print activity. Resides on the print server</p>	<p>Instant Messenger (IM Client): Communicates the status of print jobs to users (e.g. job printed on primary printer, job routed to alternate printer). Allows users to assign account codes to print jobs</p>
<p>IMServer: Controls communication with IM Clients</p>	<p>RX Management Dashboard: Provides comprehensive set of reports by printer, by user, by department, and by account. Allows the Administrator to set up account codes for use by print users</p>
<p>Rule-based Intelligent Routing: Routes a print job to another printer if rules are met:</p> <ul style="list-style-type: none"> ▪ If size or cost exceeds limits. ▪ If printer is down. ▪ If time limit expires 	<p>Complete Audit Trail:</p> <ul style="list-style-type: none"> ▪ Print volume by user ▪ Print volume by printer ▪ Print volume by department ▪ Print volume by account
<p>Security:</p> <ul style="list-style-type: none"> • RoutXpress does not have security implications and will not slow your network 	<p>Reporting:</p> <ul style="list-style-type: none"> ▪ Comprehensive and flexible selection criteria for all reports ▪ Reports can be viewed or stored in Excel, PDF or Crystal Reports formats
<p>American Printware, Inc. (949) 488-2222 www.apwi.com Sales: sales@apwi.com For a free trial, please contact: support@apwi.com</p>	<p>Technical specifications:</p> <ul style="list-style-type: none"> ▪ Installs silently to hundreds or thousands of workstations ▪ Tracks printing from all Windows applications ▪ Comprehensive reporting subsystem ▪ Extensive database of enterprise print activity
